

The Challenge for the Earth : “Environment & Safety”

AZEARTH®

Corporate Profile

*The name “Azearth” was created by combining the letters “AZ”,
which express the idea of “entirety” in English (as in “from A to Z”), with the word “earth”.*

AZEARTH Corp.

Protective Clothing & Equipment Business

A total solution supplier contributing to personal protection and environmental conservation

With DuPont™ Tyvek® products as our core products, we supply chemical protective clothing and environmental equipment for a wide range of applications, from paint/oil dirt, hazardous dust, and handling hazardous chemicals to countermeasures against infectious diseases such as the new influenza.

We also provide products that protect workers from a wide variety of risks, such as arc flash protective clothing and flame-resistant protective clothing, as well as high-visibility protective clothing.

We provide not only products, but also total solutions to realize a safe working environment, including support for the introduction of protective clothing and training.

List of products

● Chemical protective garments

- Handling of chemical substances at factories etc.
- Measures against terrorism
- Measures to prevent exposure to asbestos
- Measures to protect against infection

● Environmental equipment

- Negative pressure portable air filtration machine
- Vacuum cleaners fitted with HEPA (High Efficiency Particulate Air) filters
- Air showers, Water showers

● Support for the introduction of protective clothing

- After reviewing the nature of the work and the type of work environment, the statutory regulations, risks and so forth, we then propose the type of protective clothing that is appropriate.
- We also provide support for the introduction of protective clothing in cases where a new kind of protective clothing is required at a work site, or where there has been a change in the working environment.

● Support for Education

- We are not only concerned with the sales of our products; we also focus on the dissemination of accurate knowledge relating to protective clothing.
- Beginning with the product explanations, we offer educational programs that are tailored to meet the conditions at the work site in question, such as how to don and doff protective clothing.
- We offer explanations of protective clothing in cases where new protective clothing has been adopted, or as part of a wider safety education program.

*DuPont™, Tyvek® are owned by affiliates of DuPont de Nemours, Inc.

Health Care Products Business

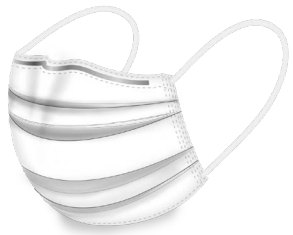

Providing safety and security with healthcare products, including high-quality masks manufactured in-house

In addition to manufacturing non-woven masks, we provide highly unique products to a wide range of markets from medical to healthcare.

List of products

● Nonwoven masks, Other healthcare products

We are going to expand product line-up for medical institutions and retail other than a mask in future.

Life Materials Business

Garment Material

A supply structure that continually offers new products with reliable quality along with a global network offering a fair price

We supply apparel manufacturers with lining, interlining, pocket cloth, buttons, fasteners, and other apparel subsidiary materials, our own cut products, and tape processed products.

Our global network, which includes our subsidiaries in Shanghai and Dalian, our representative office in Vietnam, and our sales office in Japan, enables us to package the materials necessary for apparel manufacturing and to supply them to overseas factories in a timely manner.

List of products
